Dice 0.923

Dice 0.746

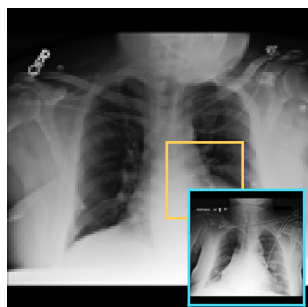

Mean $|\Delta|$ 0.09796

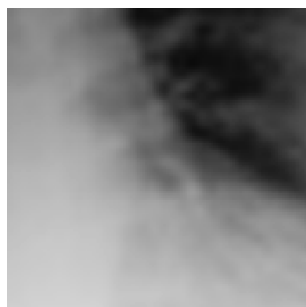

CXAS pseudo-label

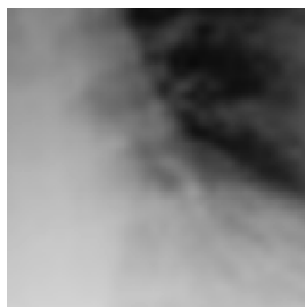

SR Smallest response

Different-patient donor

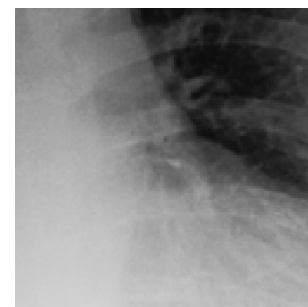

PSNR 32.00 dB

PSNR 31.99 dB

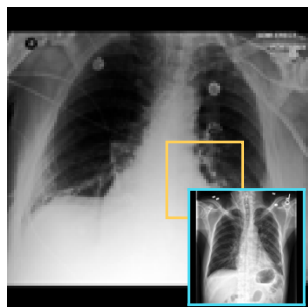

Mean $|\Delta|$ 0.00028

HR crop, reference only

SR Largest response

Different-patient donor

PSNR 30.99 dB

PSNR 30.80 dB

Mean $|\Delta|$ 0.00163

HR crop, reference only

Seg.: mean $|\Delta|$ probability

SR: $|\Delta|$ intensity

Mean $|\Delta|$ uses the full valid image; SR panels show the same fixed crop. Dark maps preserve weak responses.
